PROFESIONAL SUMMARY

As a front-end developer, I bring 3 years of hands-on experience (non-commercial) in building responsive and user-friendly web applications. I am proficient in translating UI/UX designs into responsive, interactive features using web technologies such as HTML5, CSS3, and JavaScript. I primarily use the React framework to create dynamic and interactive interfaces that enhance user experience and engagement. Additionally, I have a strong understanding of web accessibility standards and SEO principles.

SKILLS

- React
- JavaScript, TypeScript
